

## SAFETY DATA SHEET

### 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE

**Product Name:** Pour In Foam PART B

**Synonyms:** Not available

**Uses:** Component of a Polyurethane System

**Suppliers Name:** Norski Holdings  
10 Northpoint Street  
Plimmerton 5026  
Wellington

**Emergency Number:** Ph: 0800 500 341      Mon-Friday 8.00 am – 4.30 pm  
Ph: 0800 500 341      24 hrs

### 2. HAZARDS IDENTIFICATION

**Statement of Hazardous Nature:** Not classified as hazardous according to criteria in the Hazardous Substances (Minimum Degrees of Hazard) Regulations 2001.

**HSNO Approval Number:** Non Hazardous, Non Dangerous Goods

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

<b>Ingredients:</b>	<b>Cas No:</b>	<b>%</b>
Other ingredients determine not to be hazardous	-	$\frac{\%}{\text{To 100}}$

### 4. FIRST AID MEASURES

#### EMERGENCY & FIRST AID PROCEDURES

**Eye Contact:** Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

**Skin Contact:** Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.

**Inhalation:** Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.

**Ingestion:** Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur

**Medical Attention and Special Treatment:** In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.

**Note to physician:** Treat symptomatically.

## 5. FIRE FIGHTING MEASURES

**Extinguishing Media:** Use dry chemical, CO<sub>2</sub>, water spray (fog) or foam.

**Special Fire Fighting Procedures:** Fire fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. In a fire or if heated, a pressure increase will occur and the container may burst.

**Unusual Fire and Explosion Hazards:** Decomposition products may include the following materials:

Carbon dioxide, carbon monoxide, nitrogen oxides, phosphorus oxides, halogenated compounds.

## 6. ACCIDENTAL RELEASE

### MEASURES SPILLS AND DISPOSAL

**Steps to be taken in case material is released or spilled:** No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.

Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

#### Large spill

Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material eg sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations.

#### Small spill

Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container.

## 7. HANDLING AND STORAGE

### SPECIAL PRECAUTIONS AND STORAGE DATA

**Special Sensitivity (Heat, Light, Moisture):** Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.

### STORAGE AND TRANSPORT

Classified as a C1 (Combustible Liquid) for the purpose of storage and handling, in accordance with the requirements of AS 1940. Refer to State Regulations for storage and transport requirements.

**Storage Temperature (Min/Max):** Store between 10-25°C.

**Average Shelf Life :** N/A

## 8. EXPOSURE CONTRAS/PERSONAL

### PROTECTION EXPOSURE STANDARDS

**Threshold Limit Value – Time Weighted Average (TLV-TWA):** Not established

**Threshold Limit Value – Short Term Exposure Limit (TLV-STEL):** Not established

**Threshold Limit Value – Ceiling (TLV-C):** Not established

### ENGINEERING CONTROLS

**Ventilation:** No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits.

### PERSONAL PROTECTION

**Skin and eye protection:** Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists or dusts.

Refer to Australian/New Zealand Standard AS/NZS 1337:1992 for guidance on selection and use of protective eyewear.

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Refer to Australian/New Zealand Standard AS/NZS 2161.1:2000 for guidance on selection and use of protective gloves.

Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Respiratory Protection:** Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Refer to Australian/New Zealand Standard AS/NZS 1715 and AS/NZS 1716 for guidance on selection and use of respiratory devices.

## FLAMMABILITY

**Flammability Limits:** Not available.

## 9. PHYSICAL/CHEMICAL PROPERTIES

<b>Appearance &amp; Odour:</b>	Yellow liquid
<b>Boiling Point:</b>	Not available
<b>Vapour Pressure:</b>	Not available
<b>Specific Gravity:</b>	1.14
<b>Flash Point:</b>	Closed cup: >100°C
<b>% Volatile by Volume:</b>	Not available
<b>Flammability Limits:</b>	Not available
<b>Solubility in Water:</b>	Not available

## 10. STABILITY AND REACTIVITY

### REACTIVITY DATA

**Stability:** The product is stable

**Polymerisation:** Will not occur.

**Incompatibility (Materials to avoid):** Reactive or incompatible with the following materials: oxidising materials, metals, acids and alkalis.

**Hazardous decomposition products:** Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## 11. TOXICOLOGICAL INFORMATION

### HEALTH EFFECTS

#### ACUTE:

**Skin and Eyes:** No known significant effects or critical hazards.

**Ingestion:** No known significant effects or critical hazards.

**Inhaled:** Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.

**CHRONIC**

**Human Effects of Over Exposure:** No specific data.

**12. ECOLOGICAL INFORMATION**

No data available.

**13. DISPOSAL CONSIDERATIONS**

**DISPOSAL STATEMENT**

Recycle wherever possible.  
Bury residue in an authorised landfill.  
Recycle containers if possible. If not possible, dispose of in an authorised landfill.  
Containers may still present a chemical hazard/danger when empty.  
If container can not be cleaned sufficiently well to ensure that residuals do not remain or if the container cannot be used to store the same product, then puncture containers, to prevent re-use, and bury at an authorised landfill.  
Contact appropriate Waste Management Company for guidance and disposal options in your area.  
Where possible retain label warnings and MSDS and observe all notices pertaining to the product.

**14. TRANSPORTATION INFORMATION**

U.N. No:	Not applicable	Haz Chem Code:	Not applicable
Dangerous Goods Class:	Not dangerous goods		
Proper Shipping Name:	Not applicable		
Packaging Group:	Not applicable		
Toxic Substances Schedule:	Not applicable		

**15. REGULATORY INFORMATION**

**HSNO Approval Number: Non Hazardous, Non Dangerous Goods**

## 15. OTHER INFORMATION

This document was reviewed and revised on May 2019
